Projects

E-commerce website, "Crafting an e-commerce website using HTML, CSS, and JavaScript to seamlessly blend aesthetics, functionality, and user experience, ensuring a captivating and efficient online shopping journey." 

Currency Converter, Crafting a currency converter with HTML, CSS, and JavaScript, seamlessly blending user-friendly design with real-time exchange rates for a dynamic and intuitive financial tool. 

AI Image Generator, Creating an AI-powered image generator involves harnessing the power of HTML, CSS, and JavaScript to build an interactive web application. By integrating with a suitable image generation API, users can explore endless creative possibilities, transforming ideas into visually stunning artworks with the help of artificial intelligence. 

Others, Successfully completed over 25 diverse projects

Professional Experience

Front-End Development (Internship), Thrived and evolved during a transformative one-month front-end development internship, gaining valuable insights into web technologies and honing my skills in crafting intuitive and visually appealing user interfaces.
